- Buff Orpington
- Easter Egger
- Delaware
- Black Star
- Production Red
- Hatchery Choice Feathery Leg Bantam*

Friday, April 26:

- Welsummer
- White Frizzle Cochin Bantam*

Our chicks are PULLETS unless otherwise noted.
Pullets are female chicks that grow into hens.

*Bantams are "straight run" meaning they are unsexed.

"Star" breeds are Sex Links; there is 100% accuracy in the sexing due to males and females having different colored feathers when born.

Chicken notes:

- ◆ We order all pullets when available, which grow into hens. “Straight Run” orders mean the chicks were not sexed and they will grow up to be hens or roosters, but we have no way of telling them apart at that young age.
- ◆ All chicks are available on a first come, first served basis.
- ◆ Chickens are social creatures. We recommend purchasing no fewer than three chicks to create a family unit. This makes for happy and healthy chicks.
- ◆ If you’re new to backyard chicks, review our Renfrow handout regarding advice for raising chickens and other poultry for answers to frequently asked questions, available for download at www.RenfrowHardware.com/resources
- ◆ Chickens are farm animals and some will die. Children should be prepared for that possibility. A word to the wise: hold off on naming the chicks right away.
- ◆ We receive all chicks certified disease-free. Chicks must be treated gently for several weeks. They are all vaccinated for Marek’s Disease.
